REDFCLIFF, ALBERTA, THURSDAY, OCT. 25, 1917.

Number 43.

COUNCIL HAS SHORT SESSION LAST MONDAY

More Employees Ask for Raise in Salaries -- Rate- payer Ask for Damage Done to Goods by Water.

The regular meeting of the town council was held in the council chamber last Monday evening. Mayor Bolt was in the chair and Councilors Oates, Lavelle, Broughton and Lydiate were present.

In the business arising out of the minutes Senator Inspector Crooks, who was appointed to investigate the complaint of W. Wolfe re lumber burned, reported that there was no fire at the dump on the day the lumber was destroyed and that the fire could not have been caused as alleged by the complaint. Council was satisfied of the quality that the town was not responsible for the mishap.

A letter was read from the secretary of the board of health recommending that the maximum salary be raised to \$80.00 per month, dating from Oct. 1st. The recommendation was endorsed by a vote of all members of Council.

A letter was read from W. Anderson, assistant engineer at the pump station, asking for an increase in salary owing to the increasing cost of living. This was referred to the finance committee to investigate, and motion of Councilors Lavelle and Oates.

For some time past there has been considerable discussion at council meetings regarding an agreement between the town, the Clay Products Company and the C. P. R. company in connection with the east end spur track. Town Solicitor Haid was instructed to go carefully into the matter and report at next meeting.

A letter was read from Barrister Blacklock on behalf of his client, W. McCormick, asking the council for \$100 for damages when a fire was done to goods in his cellar by water from a town water main. On motion of Councilors Lavelle and Oates the secretary was instructed to write Mr. Blacklock asking him for a itemized statement of goods damaged.

A letter was read from the department of municipal affairs drawing attention of council to the necessity of having the financial statement of the town for year printed and distributed before the annual meeting of rate-payers.

On motion of Councilors Lydiate and Oates the secretary-treasurer was authorized to forward the sinking fund on hand to the provincial treasury.

A letter was read from the department of municipal affairs drawing attention to the new regulations which permit villages, towns and rural municipalities to establish public hospitals. Each member of the council took a bulletin dealing with the matter, to read, so as to be in position to more intelligently discuss the matter at the next meeting.

Councillor Broughton reported that the fire chief was desirous of securing stocks and pull-over suits for the fire engine. On motion of Councilors Broughton and Oates the fire chief was instructed to confer with the fire chief and secure the necessary winter equipment.

As there was no more business to come before the meeting this quiet session was adjourned in good season.

Flavelle Has no Qualms in Profits

During the cross-examination of Sir Joseph Flavelle, president of the William Davis Company, at the sitting on Saturday afternoon, the profits of the concern, Sir Joseph said he considered the profits, which he said was \$1,400,000, and that he had made \$1,000,000 in 1916 on a business with \$1,000,000 invested, quite legitimate, and had no qualms of conscience over the company having it. It was just the same as a farmer buying a bunch of cattle and putting them on a feed. If the market rose and he was feeding them he was entitled to the increase in value while he was holding them.

After Society's Social A Great Success

If the first social evening and entertainment given under the auspices of the Alter Society of the Catholic congregation in Redcliff is any criterion the success of the establishment of a Catholic church here is assured.

The Catholics of Redcliff are contemplating building a church here and the above society made the first move in an endeavor to secure funds to help along this purpose by holding a social evening in Redcliff's hall last Tuesday evening. One of the largest evening crowds ever assembled for an occasion of this kind was present and all thoroughly enjoyed the program prepared for the evening.

The evening's entertainment consisted of a musical program provided by local talent, assisted by artists from Medicine Hat. Father Fitzpatrick, parish priest of Medicine Hat, was present and addressed the gathering. He complimented the ladies on the success of their venture and said the music was the best he had ever heard of in this district since coming west. On behalf of the society he thanked those present for their patronage and all those who contributed to the success of the evening. He announced that it was the intention to erect a Catholic church here in the near future and expressed the hope that the same kindly feeling shown by other dominions at that occasion might be continued throughout the future.

At the conclusion of the musical program refreshments were served, after which one of the most enjoyable dishes of the success was indulged in. The ladies who undertook the arrangements for the event are deserving of great praise for the success of their venture.

Farewell Social For Redcliff Ladies

In view of the fact that Mrs. Ross and Mrs. A. Symon were leaving town on Wednesday, the Ladies' Aid of the Presbyterian church, together with a few other friends, entertained them at the church on Monday evening. A pleasant social time was spent. After the serving of a lunch, Mrs. F. W. Sutherland called on the meeting to order and Mrs. Gordon explained the system in which the two ladies who were leaving were held, the pleasant memories they leave behind, and the good wishes which all followed them, and presented to each a golden token.

After the presentation, Mrs. Gordon called them of appreciation and affection. Mrs. Symon in reply expressed her sorrow which she had to leave a place which she had so enjoyed and a company of friends who had always proved true and kind, and wished success to the Aid and good to all. Mrs. Ross also tendered her thanks and good wishes. After the church was the tie that binds and amid fervent handshaking, the ladies parted. There were over thirty present and many unobtrusively absent sent appropriate messages.

Permanent Peace Not in Sight Yet

"I have scanned the horizon intensively," said Premier Lloyd George, "and can see no time in sight which will bring the end of this war."

The premier said he had hoped the enemy's terrible power might be broken in this year, but that the temporary outburst of Russian military power had postponed this hope. But time was favoring the allies, he said: "Time once was neutral, but two things have changed this, namely, the advent of America and the increasing failure of German submarines."

The allies were working in the greatest harmony, the premier continued. He said they were on the eve of the most important inter-allied conference ever held, at which for the first time representatives of America and of the Russian empire were to be present. He stated that the conference meant to determine the ultimate limits of the war.

"I am not going to predict when the war will be ended. No man in his senses would prolong the war an hour unless it was necessary to secure lasting peace, but it must be a lasting peace, not a prelude to a more devastating war."

RUSSIAN INFLECT HEAVY LOSS ON GERMAN FLEET

Two German dreadnoughts, one cruiser, 12 torpedo boats, and one transport were put out of action by the Russians in the fighting around the Gulf of Riga last week, of late ultimate fate is unknown, says the official statement issued by the Russian admiralty. It has been established that at least six German torpedo boats were sunk in the fighting. The Russian lost the battleship Novik and a large transport boat.

The military critic of the Svenska Dagbladet assumes that Germany is anticipating an attempt by the Baltic fleet to force an entrance into the Baltic in consequence of German success in the Gulf of Riga. He says that the German fleet has such a number of German destroyers and submarines being stationed in the neighborhood of the Baltic between the islands of Denmark and the sound between Denmark and Sweden.

Pension Increased 25 to 40 Per Cent

Upon the recommendation of the minister of finance the pension regulations applying to members of the Canadian expeditionary force have been amended by order-in-council, providing an increase in the government's pension.

The amendments made are far-reaching in their effect. They provide for an increase in pensions and allowances, and in respect of widows and orphans, and the rate of the adjustment is up to and including the rank of subaltern in the Canadian navy, and subaltern in the Canadian expeditionary force.

The most important changes provide for increases in pensions and allowances. These changes will be considered as having come into force from April 1st, 1917, and the date when the adjustment is made. The changes will affect the pensions of soldiers and sailors and their children, and the pensions of widows and children, and their younger widows and children, and the pensions of widows and children, and their younger widows and children, and the pensions of widows and children, and their younger widows and children.

The increase in the amount payable by Canada for pensions and allowances will be approximately 40 per cent. At the present time the annual expenditure involved is about five million dollars. With the increases now authorized, Canada's share for pensions and allowances will be over seven million dollars during the fiscal year.

U. S. Traitors Had Cache of Sugar

United States federal secret service agents have reported to Washington the discovery in a Buffalo warehouse of millions of pounds of sugar in bags and barrels labelled "top crust flour."

Notations on the packages, it was said, indicated that the sugar had been sold to the enemy in the last few months of several months. A federal agent who made a survey of the contents of the building, estimated the amount of sugar at 1,000 cartons, or about 10,000,000 pounds.

Around immense piles of sacks containing sugar, he federal agent said, he found a screen of other articles. Some of the containers marked "top crust flour" actually had flour sprinkled over the outside.

Zeppelin Raid Over London Last Friday

An official report from London says that three Zeppelins, four of which crossed the east coast of London at about 8 o'clock last Friday night, four going in one direction and three in the other. At 11:30 o'clock one Zeppelin passed out on the homeward journey. This aircraft dropped six bombs at 11 o'clock and three at 11:15. The total of its engines was heard for 20 minutes.

The casualties in all districts were killed, 27; injured 58. There was also some damage done to houses and business premises.

BON FRANK R. CARVELL

"Fighting Frank" as he was known until his entry into the union government of Sir Robert Borden as Minister of Public Works, was for years one of New Brunswick's leading politicians. From 1904 on he sat in the Federal House of Commons for Carleton, Inverness county, and for a long time was his home riding in the provincial legislature. For thirty years he was the most strenuous fighter in the ranks of the liberal party and he was his accession to the National cabinet in October, 1917, that he had won the country that the backbone of opposition to the union idea among liberal members was broken.

When the Laurier following went into opposition in 1911, Mr. Carvell found great opportunity to increase his prominence as an aggressive leader. He took a prominent part in the investigations of the Militia Department conducted before the Public Accounts Committee in the session of 1913 and in the general election of 1917. He found time in 1914 to act as counsel for the Inland Navigation Commission which resulted in the retirement of Hon. J. C. Fleming from the premiership of New Brunswick in 1914.

Hon. Mr. Carvell, who is a barrister, was elected to the House of Commons in 1914. He was elected to the House of Commons in 1914. He was elected to the House of Commons in 1914. He was elected to the House of Commons in 1914.

He was elected to the House of Commons in 1914. He was elected to the House of Commons in 1914. He was elected to the House of Commons in 1914. He was elected to the House of Commons in 1914.

Election Expected Early in December

It is now certain that the general election will be over some days before Christmas. Monday, December 17th, is the day when the election will be held. The work of organization is proceeding rapidly. No election was held in the last few years. The election will be held in the last few years. The election will be held in the last few years.

Hun. Zeps. Caught On Return Trip

Although at first it was believed that the visit of the German minister to France last Sunday was an independent move and the first step in carrying out the threat made in a German wireless message which said it had been decided to destroy Paris it has been decided to destroy Paris it has been decided to destroy Paris.

At the same time, last week in the presence of a few friends, Mr. Crawford (Mr. Armstrong) and Miss Rita Elms both Brydges were united in marriage by Rev. G. Lawson Gordon. After the ceremony the young couple returned to their home at the Lake, St. John, where they intend to make their home.

A MEXICAN PLOT.

That Rolo Pansa prepared a plot to overthrow the German government in Mexico to make that country to assist Mexico in the statement, says La Mania, of Baron Guin, last evidence was heard by Judge Fouchard Saturday morning. Baron Guin gave the judge full information from Rolo Pansa and said: "I have disclosed that I make Mexico enter the war on the side of the Allies, then nothing ever will."

'Our Day' Contribution . BIG FRENCH Amounted to \$110.00 VICTORY ON WEST FRONT

The supper and entertainment given by the local branch of the Red Cross society last Thursday evening was a great success from every standpoint. The event was undertaken by the local branch of the Red Cross society to secure funds for the British Red Cross society as its share of the "Our Day" movement.

Success was served in Redcliff's hall and promptly at 7 o'clock the crowd, knowing the reputation of the Red Cross in the supper line, commenced to arrive. The tables were, as a result, not long in being filled to capacity not only once but several times. The tables provided and the excellent service furnished by the younger members of the society left nothing to be desired.

After all had partaken of the good things provided there were of the fragments that remained served in home-made cakes. These were sold by auction and netted a tidy sum. Following this there was a musical program rendered by local talent and promptly at 7 o'clock the crowd, knowing the reputation of the Red Cross in the supper line, commenced to arrive.

On the whole the evening was a great success and must have been a source of satisfaction to those who undertook the work. The ladies of the society rendered cheerful and liberally to the cause made upon their assistance and refreshments, and Mrs. Lavelle, the event, wishes us to extend the hearty thanks of the committee and making it all those who were present at the society last evening such a success.

The proceeds from the event amounted to \$110.00 after all expenses were paid. This amount has since been forwarded to British Red Cross officials at Calgary.

Russian Fleet Gets Away from Hun.

All Russian naval units except the observation elements, have succeeded in getting out of Moon Sound without losses and are protecting the northern entrance to the sound, the Marine Corps announced in an official statement. In the operations in the Gulf of Riga, a Russian submarine sank one German transport and it is reported that the submarine was damaged. If not a German dreadnaught at which two torpedoes were fired.

Hun. Socialist Threaten Revolution

"The strength and patience of the people in all countries is coming to an end, and the German government will be unable to maintain its position unless peace comes within a few weeks revolutionary convulsions will arise from the masses."

This was the warning given by Herr Hoch, member of the Reichstag, after the Socialist conference that rejected a motion to bind the party to vote against war credits in the Reichstag.

ARMSTRONG-BRYDGES

At the same time, last week in the presence of a few friends, Mr. Crawford (Mr. Armstrong) and Miss Rita Elms both Brydges were united in marriage by Rev. G. Lawson Gordon. After the ceremony the young couple returned to their home at the Lake, St. John, where they intend to make their home.

FIERCE FOOT FIRES DISTURB AUSTRIA.

The Austro-Slovene frontier has been closed since the serious internal situation in Austria, according to an Exchange Telegraph dispatch from Vienna. Several military factories were wrecked in recent food riots in Vienna, Pressburg, Brunn and Laibach, the rioters being mostly women.

The public, according to reports, fired on the crowds, killing and wounding many persons.

Penetrate German Lines to a Depth of More Than 'Two Miles -- Take Many Prison- ers.

While the allied troops were busily engaged in consolidating positions won Monday in Flanders, the French forces of General Petain's army, which they threw back the army of the German crown prince which was besieging Verdun, have advanced to the north-east of Sedan, Tuesday morning and made some of the most important gains of territory since they threw back the army of the German crown prince which was besieging Verdun.

The stroke was made from a front of about six miles, from the east of Vaux-la-Petite, to the west of Sedan, and generally unfavorable weather conditions the French pushed forward all along the line, the aid by the attacking army, with the aid by the attacking army, with the aid by the attacking army.

The greatest depth of the drive was in the center of the line. The village of Chavignon was captured after a violent struggle, which resulted in the capture of many prisoners. The French in positions which would have been more advantageously to press on later toward Laon.

Some of the best troops in the army of the German crown prince were engaged in the fighting. The French, on the other hand, were attacking, but their efforts were unavailing under the enthusiasm of the French in positions which would have been more advantageously to press on later toward Laon.

Some of the best troops in the army of the German crown prince were engaged in the fighting. The French, on the other hand, were attacking, but their efforts were unavailing under the enthusiasm of the French in positions which would have been more advantageously to press on later toward Laon.

To Send Xmas. Presents to Soldiers

Postoffice officials have received new instructions in regard to postal regulations on parcels for Canadian Expeditionary Forces overseas. Parcels addressed to the Canadian Expeditionary Forces overseas should bear the name and address of a second address, in the name of the parcel may be delivered or forwarded if it should prove impossible to deliver it to the intended recipient. The original address to be written on the back of the parcel where the postage stamps are affixed, and the second or alternative address should be written on the back of the parcel.

If a second address is not furnished at the time of posting, local post offices cannot be effected, the contents of the parcel, unless of exceptional value or of a personal nature, will be turned over to the military authorities for distribution.

Parcels containing articles of a personal nature or of special value to the sender, such request to be written on the case of non-delivery is made by the sender, such request to be written on the cover of the parcel at the time of posting.

It is being adopted at the suggestion of the British postoffice, which states that the present procedure of hiding undeliverable parcels at the post office is unsatisfactory. Instructions are received as to their disposal in resulting in a waste of a large quantity of valuable foodstuffs which form the contents of 90 per cent of parcels addressed to soldiers.

Says Farmers Should Support the Loan

Sixteen thousand farmers throughout Alberta will shortly receive a circular from the executive of the United Farmers of Alberta, calling upon them to support Canada's new Victory Loan with all the resources they can command. H. W. Wood, president of this large and powerful organization has prepared this circular.

Mr. Wood takes the attitude that the farmers must subscribe to the war loan if they want high prices for their wheat. "By loaning, not giving, help to the government," he says, "the farmer will keep his own money in his pocket and keep open a market for our products, and thereby maintain our prosperity," he says.

MAKING GOOD.

Although the union government at Ottawa has only been in existence a few weeks it is showing to the people of Canada that a government which can undertake such radical and popular changes in times of war, is just the kind of government which would also be most successful and advantageous in times of peace as well. Such a government is along the lines which have been advocated in these columns on many occasions in the past.

As proof of this opinion one has only to review the many changes already undertaken by the union government; changes which could only be made possible by a conscientious setting together of the two leading political parties with nothing but the welfare of the country as a whole at heart.

The union government says the Military Service Act is to be enforced; war profits, personal and corporation incomes are to be more heavily taxed; profiteering is to be stamped out; distribution and consumption of food-stuffs are to be regulated; the returned soldier problem is to be taken out of the vote-catching column and provision made for immigration to Canada after the

war; the patronage system which has already been a millstone around the necks of sitting government members and defeated candidates is to be done away with and appointments made by promotion because of ability; last but not least every new point to the granting of the franchise to women.

In the past all these questions have been handled with kid gloves, each party apparently dealing with them with an eye single to their influence in catching votes. With a union government, however, it is different, as has already been clearly shown.

The present union government is making good. It is hoped it will be one of the permanent blessings brought about by the war.

A FITTING ANTEDOTE.

With a general Dominion election now in sight and with the complete change in the past programs assured, because of the formation of a union government, much of the success of that election, from the standpoint of Canada's best interests and with the complete change in the stand taken in it by our hitherto strong party men and election workers.

There is little or no doubt that the reading, thinking public and Tory alike, is in sympathy with the union government movement and can be depended on to do its duty at the polls. Unfortunately, however, there is the other element in almost every section of the country; the element which is easily influenced by smooth ward heeler, or in other words the purchasable element. It can easily be seen, therefore, that the only hope for success those opposed

to union government have, is to create descension and jealousy among those of the old political parties who have joined forces for the common good of the country. Unfortunately there are those who do not appear to be able to get away from the old idea about "the grand old party" which has done so much, etc., etc. These are the ones who will make trouble, and are even now trying to draw the red herring across the trail in some of the constituencies. These are the ones who will try to get in their work on the "easily influenced" element above referred to, and unless the other element sees to it that all such movements are nipped in the bud serious consequences may result.

There must be an out-and-out win-the-war, union government supporter candidate in every constituency in Alberta. To make this possible there must be a considerable amount of give and take in both branches of the fusion element. If this is done and the ward heeler kept where they belong, we may reasonably look for a solid representation going from Alberta to Ottawa by acclamation. This would be the very, best thing Alberta could do and it would be a fitting antedote for the part this province played in the now famous Winnipeg convention.

A REVELATION.

The Regina Leader says editorially: "The nations of the world have been taking stock of the physical condition of its young men. They have been still and are, separating the weak from the strong for purposes of national defense.

"In Canada and the United States the result has proved amazing and disillusioning to those who have held to the pleasant

fiction that we are rapidly developing an exceptionally vigorous and physically strong race on this continent. The fact that in both countries there is such an enormous group of physically defective young men, chiefly victims of preventable, as well as curable, afflictions, should be a matter of deep public concern not merely because of the present loss from the military and economic standpoint; but because of the adverse influence which these low-powered lives will have upon national vitality in this and in future generations."

The examinations of our young men for military service has brought out these astonishing facts. One thing that is most encouraging, though, is the fact that in a large majority of cases those turned down as medically unfit are suffering from diseases which are preventable or curable; diseases which are brought about by their own carelessness or negligence. Therefore these young men should profit by the conditions which are being brought to their attention and immediately take steps to renew their youth and vigor. Every young man suffering from these diseases knows full well what caused them. He also knows—of should know—the cure.

The vacancy in the Saskatchewan government caused by the retirement of Hon. J. A. Calder to enter the union government at Ottawa, has been filled by S. J. Latta, editor and proprietor of the Govan News. Things are looking up all right. With a newspaper man in both Alberta and Saskatchewan governments there are indications that the people are at last coming into their own.

The front door of a house on First street was smashed in last Saturday night by a brick throw from the sidewalk. It is not the occupants of the house who are the sufferers, but the owner, who has to pay for repairing the damage done. The person who did this must not understand the criminality of his act and marks himself as a creature more fit for the penitentiary than enjoying the liberties of a civilized community.

There appears to be some doubt as to along what lines the approaching Dominion election will be fought. There need not be. The question at issue really is whether or not Canada is to do all she can in the present conflict. Union government supporters say yes; all others say no.

The new union government says, "down with profiteering." The governor at Kingston pen will no doubt take the hint and reserve quarters for the Bacon Baron of Belleville.

According to reports from Edmonton and Calgary it appears to be understood that Hon. A. I. Sifton, Alberta's former premier will run in this constituency as a union government candidate. The Review is of the opinion that this constituency could not do better than accept Mr. Sifton if he is willing to offer himself as a candidate.

Now that the Military Service Act is in force in Canada it would be well for all to remember that the act provides a stiff sentence for any who by word or action does or says anything that will in any way hinder or retard the successful carrying out of the act.

ITEMS OF LOCAL INTEREST

Mr. and Mrs. W. J. Fairbairn returned home on last Sunday's train.

WANTED—A dining-room girl. Apply to Mrs. D. Broadfoot, Redcliff hotel.

Mrs. Melvin Cowie left last Monday for Calgary to join her husband who is now located there.

The Chateau will be here on Nov. 21, 22 and 23. Watch for further announcement next week.

Mrs. A. Symon and her mother, Mrs. Moss, left last Tuesday for Craik, Sask., where they will reside in future.

Lloyd Fairbairn, son of Mr. and Mrs. W. J. Fairbairn, of this town, is now on his way to England with a Winnipeg battalion.

The treasurer of the Red Cross acknowledges with thanks the receipt of \$10.00 from F. C. Hasleton, who farms northwest of town.

Mr. and Mrs. E. Allan and family, who have resided here for some time, left last Monday for British Columbia, where they will take up market gardening.

W. J. Fairbairn received the sad news last week of the sudden death of his mother in Arthur, Ontario. Deceased lady had reached the advanced age of 86 years.

A Hollowden wake will be held in Reid's hall next Wednesday evening. No untoward all attend are going in Hollowden costume. All are welcome whether in costume or not.

C. T. Hall is now out around again after being laid up for a week with a severe cold. Cecil says he never would have been sick if he had patronized the drug store a little sooner.

At the last regular meeting of the school board it was decided to change the regular meeting night from the first and third Tuesday to the first and third Thursday of each month.

Mrs. Bryce Mitchell, of Medicine Hat (see Miss Stevenson) formerly a Redcliff school teacher, received word last Saturday of the sudden death of her father at Spring Hill, Nova Scotia.

The different industries in town are taking the necessary steps to secure a record of their help to be effected by the military service act. This is a wise move and it is in keeping with the spirit of the act.

The Review is in receipt of a field card this week from Ed Scott, one of the first reservists to leave Redcliff for the front. Scott is still on active service and has escaped any serious injury so far.

Another dance under the auspices of the Old Fellows social committee will be held in Reid's Hall on Saturday evening. There will be a five-piece orchestra to furnish music. All are invited.

Mandy Holmer, one of the employees at the Glass plant, received word from his home town in the United States that he was drawn in the first draft for service. He left for Helena, Mont., at once.

Her many friends here will be sorry to learn that Mrs. H. O. Wheeler, formerly of this town but now of Havre, Mont., met with a painful accident a few weeks ago by which her hip joint was dislocated. She is now progressing favorably.

The Redcliff band made its first appearance on the streets last Saturday evening. They played in front of several of our business places and their music was much appreciated. It now have the makings of an excellent band.

BUILDING TO RENT—\$550, brick veneer building on Third street, across from Redcliff hotel. Suitable either for store or residence purposes; possession given after October 15th. Address Otto M. Shipley, Hampden, North Dakota.

WANTED—by the town of Redcliff, a man to act as second engineer at their pumping station. Applications stating age, qualification and salary expected to reach me before 9 a. m., Monday, October 29th. One with gas engine experience preferred. J. R. Aakwith, town engineer.

Mayor Bitt is in receipt of a letter from "Big" Billy Watson, a Redcliff boy who has been in a hospital at Edmonton since last May. Bill is now on the hospital staff and is getting along nicely. He reports that Joe Tarnant, John Heines, David Gordon, Jas. Parry and Charlie Symon, all Redcliff boys, are at the same hospital and doing well.

Some of the young men in town got up an impromptu dance in Reid's hall last Saturday evening to take advantage of a skilled piano player who was in town over the week end. There was a very large crowd in attendance but those who were present thoroughly enjoyed the evening.

1 cup onion (sliced)
1 cup fish.
Cook separately potatoes, onion and fish. Combine. Season and reheat with White Sauce.
(Recipes by Domestic Science Experts of the Food Controller's office.)

Will Not Abandon Military Service Act

It is positively stated in official circles that there is no foundation for the stories to the effect that the government will abandon conscription because of the large number of applications made for exemption. The military service board is proceeding with its work with the full expectation of carrying out its plan to have the first drafts called out for service on December 10th.

The arrest of German residents of a line county, North Dakota, who claim to send their children to public school where American and English instruction is taught continues.

Bob Pittsimmons, the one-time champion heavyweight of the world, died suddenly in Chicago from pneumonia. He was 55 years of age.

Regular services next Sunday morning and evening at 11 a. m. and 7:30 p. m.
Sunday school has usual at 10 a. m.

Two U.S. Boats Torpedoed by Huns.

The American army transport, Anahita, has been attacked and sunk by a German submarine with the loss of about seventy lives—the second American vessel the Germans have torpedoed during the past week, late on succeeding days. The other craft was a torpedo boat destroyer, which suffered a loss of one life and five men injured.

Both vessels were attacked within the war zone, the destroyer on Oct. 16th and the transport the next day. The destroyer made port, although badly damaged, but the transport sank with five minutes after she was torpedoed from an unseen submarine struck her abreast of the engine room bulkhead.

New Senators Have Been Appointed

It is announced that four of the nine senate vacancies in the western provinces have been filled by the appointment of Dr. P. T. Schaffner for Manitoba, Mr. W. S. Willoughby for Saskatchewan, and Col. J. D. Taylor and Mr. G. H. Harnard for British Columbia. It is understood that these appointments are made in pursuance of arrangements consummated before the union government was formed. There are still remaining five vacancies in western Canada, one each in Manitoba, Saskatchewan and British Columbia and two in Alberta. It is not anticipated that these will be filled in the near future.

Home Grown Seed
Best For Field Roots

One of the reasons why root seed growing has not been practiced to any extent in Canada before, is the rather widely spread idea that Canadian climatic conditions are not favorable to the production of high class seed as are the conditions in those European countries upon which Canada relied in the past for her seed supply. In other words, the European countries have been supposed by virtue of more suitable soil and climatic conditions to be capable of raising seed producing larger root crops of higher to be capable of raising seed producing larger root crops of higher quality than Canada ever could be expected to do. A similar conception is also very common in the United States. Such a conception has no foundation and is entirely wrong.

Experiments, conducted the last few years by the Experimental Farms system all over the Dominion most conclusively prove that Canadian grown seed in no respect is inferior to imported seed. On the contrary, it produces better crops than does imported seed. In support of this statement the results obtained in 1916 with home grown seed of varieties of mangel and Swede turnips in comparison with imported seed of the same varieties show that in nine of the Dominion experimental stations home grown seeds have produced over two and four-fifths tons more to the acre than imported seed of the same variety.

Drive Undertaken
Monday in Belgium

The French and British troops started off the week well on the western front. On Monday morning French troops adjoining the British in Belgium attacked on a front of one kilometre and gained all their objectives. Reconnoitering parties penetrated the enemy's lines at various points and took a number of prisoners. Latest reports state that severe fighting continues all along the Aisne front.

A. K. McLean and Senator Roberson have been added to the union government. Both were sworn in as ministers without portfolio.

All important works dealing with munitions have been removed from Petrograd, according to a dispatch to the Times from the Russian capital. German Zeppelins, it adds, are at-

tacking towns some distance from their fighting front.

The foremost airman in the British army today is a Canadian lieutenant. His recent rival is an American from Chicago, who thus far has accounted for 22 German ships. The total "bag" of American flyers in the British service is now in the neighborhood of sixty.

Replying to a question in the house of commons last Friday, Lord Cecil, minister of blockade, denied that negotiations for terms of peace had taken place with the wilmans or any of its agents or with any other religious organization.

Members of the world's champion White Sox team received cheques for their share of the receipts from the world's series amounting to \$91,738. Each of the twenty-five players eligible to share in the money received a cheque for \$3,669.
